

SPA525FR

5.25" Low Profile, In-Ceiling, Full Range Loudspeaker

The easy to install SPA525FR is a full-range ceiling loudspeaker that incorporates a paper cone woofer with cloth surround.

This speaker provides superior and more natural sound for both foreground and background applications. The Enclosed Metal design makes it the ideal choice for typical applications in open beam attic or enclosed ceilings.

The speaker grill color is white, and is a close match to Frazee White Shadow 181. It can be painted to match any décor. The speaker enclosure is a durable UV-resistant material that allows for both indoor and outdoor installations. The perforated powder-coated aluminum alloy grill is long-lasting, corrosion resistant and rust-free.

Four built-in expanding transverse dog leg clamps permit installation with or without pre-wire construction brackets in drywall or material with thickness of 7/32" to 1 3/16".

The included mounting kit allows for installation in standard 2'x2' or 2'x4' suspended ceiling tiles. The kit also offers support to prevent sagging. To comply with UL, NFPA90 and NFPA70A an earthquake ring is provided on the speaker for added support and to prevent the unit from falling in the event of seismic disturbances.

Electrical connection, up to 12 gauge wire, is made by four screw down 2-pole, removable captive connector.

With our limited 5 year warranty you are assured years of superior trouble free operation.
